Hi Adam,

I just wanted to let you know that the Rakai data request has been submitted and is under review. I am hopeful it will get approved quickly.

I'm putting you in touch with Victor Ssempijja, who is an NIH/Ugandan-based statistician and has worked with RHSP for many years, including as prior director of our data management team. He led the analysis for the Lancet HIV Kagaayi paper.

He will be the RHSP liaison on this project and the main point of contact while I am out on maternity leave. I'm also cc'ing Steve Reynolds, who heads the RHSP ICER, and is very involved with our incidence analyses.

I'm due June 9, so if you think it would be beneficial for us all to link up beforehand please let me know.

Kate
